

The Public Utilities Commission for the Municipality of Chatham-Kent

Drinking Water Quality Management System

CK PUC Operational Plan

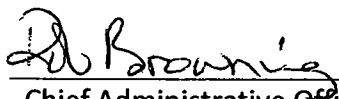

DWQMS Element 3 – Commitment and Endorsement

The Public Utilities Commission for the Municipality of Chatham-Kent (C-K PUC) is committed to ensuring that a Quality Management System (QMS) is developed and implemented according to the requirements of the Drinking Water Quality Management Standard (DWQMS). Steps will be taken to ensure that the established QMS complies with all applicable legislation and regulations and that all resources that are required for the maintenance and continual improvement of the system are identified and provided.

The Operational Plan for the QMS has been reviewed and approved for the C-K PUC by Senior Management of the organization. These parties are committed to endorsing the contents of the Operational Plan and demonstrating ongoing dedication to the success of the QMS program. Evidence of this commitment is achieved primarily through the Management Review process, and by appointing and supporting a QMS Representative. The signatories of the C-K PUC further commit to ensuring that the QMS is regularly assessed to confirm its continued applicability and relevance.

To promote awareness and understanding of the QMS the Operational Plan will be communicated to relevant parties according to the Communications Procedure.
