

July 20, 2010

Attn: Resident / Property Owner

**CHATHAM - KENT PUC
CHATHAM SANITARY SEWER REHABILITATION
COMMUNITY OF CHATHAM PHASE 2**

As a follow up to the previous Notice delivered to you dated June 15, 2010, the Chatham-Kent PUC awarded the contract for the sewer rehabilitation works within your area to Clean Water Works Inc. Stantec Consulting has been retained by the Chatham-Kent PUC to administer the Contract work and to provide inspection services.

The works include trenchless technologies for relining of certain sewer sections, also known as no-dig operations. The work will also include some maintenance-hole replacements. As a result of utilizing trenchless technologies, a great deal of the works performed will have minimal disruption to localized areas in the Community.

It is anticipated that construction will commence the first week of August, 2010 and be completed by the end of October 2010. Refuse and recycling collections will still take place on the normal days. The Contractor may take the collectibles to the nearest corner if necessary and then return any containers after collection takes place. There may be certain days when access to your driveway will be restricted either during the day or overnight or both. The Contractor or the Inspector will contact everyone in any given street section that may be affected, a couple of days ahead of time, so arrangements for parking on adjacent streets can be made by the residents / business owners.

Please let the Contractor's Site Superintendents or Stantec's Inspector know of any special needs relating to deliveries, handicapped persons being transported, etc. and accommodations will be made to provide access to the home or business. Their names and cell phone numbers are below:

Clean Water Works Inc. Site Superintendents:	Stantec Consulting Ltd. Inspector:
