SEWER WORK NOTICE

Dear Resident:

As part of the on-going program to improve the sewer infrastructure for Chatham-Kent, **Liqui-Force Services** has been contracted to rehabilitate the existing sewer under your street. There will be no digging for this work.

During the liner installation process, your sewer connection will be **TEMPORARILY BLOCKED** for about 12 hours on the date below. To reduce any inconvenience to you, we ask you to **minimize your water use** during these hours. This will stop the possibility of sewage from your premises backing up into your basement or building plumbing. We are not shutting off your water service for this procedure.

Please **DO NOT** shower, bath, use dishwashers or washing machines during the hours noted below. As well, keep toilet flushing to a minimum. **Please note:** prior to the crews arriving on your street, we ask each resident to pour 1 gallon of water in every floor drain, laundry tub, bath tub and shower drain in your basement to fill any dried out traps which may allow non toxic fumes from our Lining process to enter your home.

Your help in temporarily keeping your water use to a minimum for the time shown below, allows for the renewal of the sewer on your street without the inconvenience of digging. Your assistance in keeping parked cars in driveways, and/or away from construction zone would be appreciated.

Please do not be alarmed as there will be crews working into the night, beyond the times stated below completing this procedure.

If for unforeseen reasons this work **CAN NOT** be done during the hours or date below, a notice will be issued.

If you have any questions please call Nathan Bickford of Liqui-Force Services at **1-519-816-0439**

You may also approach any one of our crew members on site during the work

DATE AND TIME YOUR CONNECTION WILL BE TEMPORARILY BLOCKED

STREET: _____

DATE: _____

FROM: _____ AM

UNTIL: _____ PM
